### AFTER THE SALOONISTS

Mayor Gilbert Has Two Little Trials

### WHICH COST LIQUOR MEN MONEY

John McFadden Was Charged With Selling to a Man, and the Mayor Fined Him \$35 and Costs—W. J. Sullivan's Case Was Dismissed For Lack of Evidence.

John McFadden has not been in the city a great while, but he has learned that there are laws here just the same as in any other sections of the country. On Sept. 9 he sold liquor to James Burke. Shortly afterward the police called on John. Yesterday afternoon there was a brief trial at city hall. John was found guilty and Mayor Gilbert fined him \$35 and costs. The latter amounted to \$10.45, and McFadden's heart was nearly as badly broken as the \$50 bill he presented to the city.

W. J. Sullivan was charged with selling Frank Spivey liquor on the same day as his brother saloonist committed a similar deed. Spivey was the only witness, and it was all right when Frank talked to the police. It was a different thing when he went on the stand. He said he asked Sullivan for a half pint of whisky, but didn't get it. The attorney for the city called on a dismissal of the case, and the mayor acted accordingly. There is some talk of Spivey being arrested for trying to procure liquor on Sunday.

### SHE SUED HIM.

William R. Wilcox and His Wife and Child in Court.

This morning on a warrant sworn out by Mrs. Blanche K. Wilcox, her husband, Robert R. Wilcox, was arrested by Constable Albright charged with failure to support his minor child. He was placed in jail and is still there this afternoon although efforts are being made to settle the case and have the charge withdrawn.

There is an interesting story connected with the suit, but those who know it do not seem inclined to give everything away. It is known at least that they have not lived together for more than a year, Wilcox living on Second street for some time. He is also known as Wilson, and when some time ago Squire Rose received a letter from the pension examiner at Warren inquiring about William R. Wilcox he could not find him.

Now facts come to light which makes the letter from the pension examiner a bit of proof of certain of Wilcox's assertions, namely the claim that his wife succeeded in having his pension cut off. As an old soldier he has long been drawing a pension, but recently he was notified that he would receive it no longer. This he laid at the door of his once loving spouse. He also claims that Mrs. Wilcox has all his earthly possessions, and refuses to hand them over to her lord and master. But few knew of any trouble until the arrest this morning, and then William made all haste to get himself out of the fix. As one of the attorneys expressed it today "the plaintiff and defendant are about equally concerned as regards the cause of the present trouble."

The chances for a compromise being effected are good and it is probable that the case will be speedily settled to the satisfaction of all concerned. On this account the squire has set no date of hearing.

### HOW HE DIED.

A Beaver Jury Clearing Up a Mystery Tonight.

Although the authorities of Beaver county are endeavoring to find how Rheinheimer came to his death, the inquest will not be ended until tonight.

Before the jury Reed Williams testified that he had been with deceased early in the evening and until 10 o'clock, and then left him to catch the train. At that time he was not intoxicated, and showed Williams some \$5 or \$6 which he claimed to have in his pocket. W. H. Thomas, an employee of the rod mill, testified to drawing the mangled body from under the engine after he had been struck. Richard Gilmore, the companion of the dead man, testified that he had drawn his pay from the pottery for him. When he saw him last on Saturday night he had about \$400 on his person. He had been out of the fix all haste to get himself out of the fix. As one of the attorneys expressed it today "the plaintiff and defendant are about equally concerned as regards the cause of the present trouble."

person. This was at Turner hall, and they only consumed two glasses of beer. It was about 10 o'clock. A new theory regarding the death of Rheinheimer was developed at the inquest by the assertion that the engineer of the first section saw a man standing by the track as though preparing to jump. This is believed by some to have been Rheinheimer, and that he was killed by the first section and struck by the second. Every effort was made to have the engineer present, but he could not attend, and the inquest was continued until this evening, when a verdict is expected.

### IT INVOLVES ITALY.

A Suit Entered by Italians in New Lisbon.

NEW LISBON, Sept. 18.—Another action arising from the estate of the late Jacob Monti, of this place, was filed this morning in the common pleas court, the widow, Mary Monti, being the plaintiff and Joseph Monti and Carolina Rancoroni, of Pim, Province of Como, Italy, defendants. Monti, possessor of considerable of an estate, died last April, leaving these defendants, brother and sister, legatees of his estate, which his wife thinks should solely belong to her. In 1870 Monti came to this country a poor man, and accumulated his wealth by the investment in property of his wife's name, always with the understanding that it was to be in her name. Being unable to read or write the English language she always understood this to be the case up to the time of his death, when she found she was only entitled to a life estate in the property when it would go to his people in Italy. The court is asked to determine her interest in this estate, and decree to her the share to which she is entitled. Prosecutor Speaker is the attorney.

Lots 2,353, 2,354, 2,355 and 2,356 in Wucherer's addition to East Liverpool were transferred today from D. W. Johnson and W. A. Mickey and wives to John Wucherer for \$1,500. Forty-four and thirty-one hundredth acres in St. Clair township from Alexander H. McCoy to James M. and George H. McCoy. Consideration \$2,880.

A license was issued today for Mr. Homer W. Kirkbride and Miss Hattie Wedup, of Salem.

### Praise for Reverend Manley.

The Clarington Independent in mentioning the fact that Reverend Manley is about to leave for conference at Warren, says:

"Reverend Manley has been with us now two years and has not only given the best of satisfaction, but has endeared himself to the people of this community to such an extent that they will be very loath to part with him, and we believe we will be voicing the wish of all when we say that we earnestly hope he will be returned to Clarington circuit for another year."

### Coxey Comes in October.

Some of the more prominent Populists and friends of Coxey have received word that when the leaves begin to turn and the frost first rents the pumpkin, the great leader of the commonweal movement, circus and all, will come down upon East Liverpool like the wolf from the fold. The advance wagon is already preparing dates and announcing meetings in the county, a matter made rather difficult since Coxey seems determined to spend each Sunday at some large town where he can offer that tent for religious services. It is not known what date in October he will be here.

### A Foraker Organization.

Some of the politicians here pretend to believe that no Foraker organization can be founded in this part of the county, and that no man with the ex-governor in his mind can go from this county to the legislature. A politician of more or less prominence told a NEWS REVIEW man this morning that this was as nothing, for the Foraker men would be at work when the right time came. Even now they are doing a great deal of quiet argument on the streets, and before the primaries come next spring a Foraker man will be chosen as a candidate, and all will help send him to the legislature.

### The Ladies' Drill.

A very interesting drill was held at the gymnasium rooms of the Young Men's Christian associations last night. The members will be uniformed in neat and natty costumes in the near future. Meetings will be held twice per week. The next drill will occur on Friday night, September 21. Drill opens at 7:15, sharp. All the military exercises, as laid down in Upton, will be exemplified, while attractive fancy movements will be taught. A matter made rather difficult since Coxey seems determined to spend each Sunday at some large town where he can offer that tent for religious services. It is not known what date in October he will be here.

### OUR UNCLE SAM IS SLOW

But he Rewarded a Liverpool Lady.

### HER HUSBAND WAS A SOLDIER

He Died Eight Years Ago, But Now Comes the Government and Remembers the Widow—A Handsome Sum For Arrearages and \$12 Each Month.

Eight years ago Josiah Risinger, who had served his country faithfully during the war as a member of the Fifty-Fifth Pennsylvania Infantry, died because of diseases contracted in the conflict. He had been a sufferer for years, and all the people residing near his home in Indiana, Pa., knew of his claim against the government. After his death an attorney, Frank Donahoe, took the case in hand, and working with a will believed he had at last succeeded in obtaining justice for his client. But nothing came of the effort, yet he did not despair. He continued the fight for what he knew was right, and after all these years succeeded in winning out. Word has been received by Mrs. Risinger, who is at present a resident of this city, that the government has granted her back pay to the amount of \$1,530.27, and she will in future be at liberty to draw from the national pocket \$12 every month of her life. Mrs. Risinger is well known in the city, and there are none among her many acquaintances to say that she does not deserve every cent given by the government. Uncle Sam is slow at times, but he usually makes up for loss of time with interest.

### ALL HUSTLERS.

Ceramic City Cycle Club Transacts Important Business.

The Ceramic City Cycle club held their regular meeting in city hall last night, and the reports showed that the different committees were hustling for all they were worth.

The committee on headquarters reported the Foutts & Stevenson building as a desirable location and the committee was continued, with President W. O. Hamilton added. On motion it was decided that the secretary prepare a book in which all members must sign their names and pay an initiation fee of \$1. The names of several new members were received and approved of. It was decided to make the temporary organization a permanent one at the next meeting. The organization will be according to the rules of the League of American Wheelmen, and will be governed by the officers designated by that body. The matter of rooms will probably be decided upon at the meeting in city hall next Tuesday evening, when a full turnout is expected.

### A USELESS HAND

Causes Mrs. Ann Furniss to Ask Wellsville For \$2,500.

Attorney J. H. Brookes yesterday filed the papers in a damage suit against the city of Wellsville which may prove a very interesting case.

Mrs. Ann Furniss is a resident of the sister city. Last March she alleges she was passing through the public square one dark night when she fell over a pile of lumber lying in front of some new buildings there. She sustained a compound fracture of her wrist, the bone protruding from the flesh as a result of the accident. Since that time the hand has been useless and the lady has been compelled to wear a glove to disguise her crippled condition. She claims the obstruction in the street was left there by pure negligence on the part of the city, and asks that the county courts allow her \$2,500 as damages.

### BETTER ANALYZE IT.

A Prominent Physician Wants Ice Investigated.

The question as to whether manufactured ice is healthy or not has been troubling a well known physician of this city. So earnest is he in the matter that he has requested the board of health to have the ice examined, and the result shown to the public. If the ice is bad some change should be made in it, but if it reaches the standard nothing more could be asked and the ice company would receive a big advertisement free of any charge. The physician would like to see the analysis made, and given to the public.

### Our Health Is Good.

Health Officer King, who keeps a close watch on the trend of disease in town, says that the health of the city is very good when all things are considered. There are no contagious diseases except those already reported, and so far as he knows none of these unfortunate will die. The good saintly and the lady has been compelled to wear a glove to disguise her crippled condition. She claims the obstruction in the street was left there by pure negligence on the part of the city, and asks that the county courts allow her \$2,500 as damages.

tary condition of the city can be found in the exceptional freedom from dangerous disease when the weather made it possible for all sorts of contagion to find a lodgement in town. The rain has washed the streets almost clean.

### Nothing For Liverpool.

The Democrats are in convention in Columbus today, but East Liverpool delegates do not seem to stand in high favor. The Eighteenth district must have a place on the committees, but Mahoning and Stark counties get by far the best end of the bargain. Potts, of New Lisbon, got a small place, but this city got nothing. As it is known that the condemnation of Senator Brice was conceived and carried out in this place, there is little wonder that the magnate is sitting on the two by twice politicians who oppose him.

### J. Jefferson County Oil.

A local capitalist who spends his money in almost every channel and is always gleaming reward from some source or other, said last night that he was much encouraged at the prospect of a rich oil field developing in the Gould district, a short distance below Steubenville. He has some investments there, as he has had in all the great oil discoveries of the past generation, and believes they will yield him a few dollars. He said that the indications could not be better, and Standard men are hunting territory.

### Welcomed Their Pastor.

The Methodist Protestant church was filled with members of the congregation last evening, and Reverend Whitehead was accorded a splendid reception. Music and oratory made up an excellent program, and the kind words spoken to the pastor showed the high esteem in which he is held. Reverend Whitehead will occupy the pulpit for another year by the almost unanimous wish of the congregation. Under his care the church has grown and prospered, and the members have appreciated his efforts.

### The People are Reading.

Not a day passes without some new readers being added to the already large lists of the NEWS REVIEW. Many of these come voluntarily and order the paper, and but a small portion are ever solicited. They want the NEWS REVIEW because when it comes each evening they know that all the happenings worth the trouble of reading are found in its columns. The NEWS REVIEW is the local paper with all the local news, and should be in every household where men and women can read.

### A Disgraceful Fight.

A disgraceful fight in which a man, his wife and two neighbor women took prominent parts, is said to have taken place in the West End yesterday afternoon. One of the women had a black eye, another walked out with her skirt torn off, and the man was hit with a tin wash basin. The cause of the trouble is said to lie in the fact that the two cannot get on well together and the women came in to act as mediators. As no complaints have been made to the police there will likely be no arrests.

### Actors at Home.

A move is on foot which will probably result in the production of two war dramas by home talent. The Knights of Pythias have the matter in hand and one of the members last night stated that the plays produced will probably be "The German Volunteer" and "Irish Spy." The arrangements with Manager Orr, of the Grand Opera house, have not yet been completed, but the dates will be somewhere about Thanksgiving and possibly on that day if the house can be secured.

### Wanted to Pave.

E. A. Freshwater, the energetic contractor who paved almost every street and alley in the city, was in town this morning. He has been contracting in the northwestern part of the state during the summer, as well as at Homestead and Bellevue in Pennsylvania, and only learned a day or two ago that there was to be some paving here. Had Mr. Freshwater been a bidder he thinks that he could have carried off the prize. His home is at Penrith, in West Virginia.

### A Toe in Plaster.

Manager Frank Swaney, of the telephone company, was superintending the unloading of some poles the other day when one dropped on his foot. At that time nothing was thought seriously of the accident, but a few days later it pained so much that he saw a physician and found that a toe was broken. It is now in plaster and getting on as well as any broken bone and one of the members last night stated that the plays produced will probably be "The German Volunteer" and "Irish Spy." The arrangements with Manager Orr, of the Grand Opera house, have not yet been completed, but the dates will be somewhere about Thanksgiving and possibly on that day if the house can be secured.

### MISSED HIS FOOTING

A Slavish Man Hurt at Walkers' Last Night.

### HE LEAPED FROM A FREIGHT

And Landed on Railroad Ties—A Broken Knee and Internal Injuries—His People Fear He Will Be Arrested. Peter Salinski Is the Unfortunate.

In one of the shanties about the Walker sewer pipe works there resides a young man for whom riding on freight cars holds no attractions.

His name, so far as the reporter could comprehend from the jabbering of the foreigners who reside in that vicinity, is Peter Salinski, and he is employed at the works. Last night he was in Wellsville and came home on a freight in preference to the street cars. On alighting he fell across a tie with one leg bent under his body, and was jammed against some other obstruction there. He was unconscious for some time and when he recovered he dragged himself in great agony to his home. A doctor was called from this city, and it was found that Salinski's leg was broken in the knee joint and he was badly bruised, beside having a gash about five inches in length on his head. The unfortunate young man was also injured internally, and his condition is considered serious. It was reported here this morning that a man had been killed at Walker's last night, but this accident was the foundation. Although the foreigners in that section are not conversant with everything, they know something about law, and it was hard work for anybody to learn much about the case this morning, as the man's relatives feared he would be arrested for riding trains.

### Making Good Ware.

A well known potter, one who is capable of judging good ware, told a NEWS REVIEW man that some of the best ware ever made in the city is being turned out these days for the trade. In spite of the rush the potters realize that goods which will grace cannot long be a fixture on the market. He also said that the factories here are constantly raising the standard of ware turned out, and it is several percent better now than at any time in the past.

### In a Dangerous Condition.

Mrs. W. H. Thompson, of 263 Seventh street, is dangerously ill as a result of the turn her case took yesterday afternoon. On Sunday the Thompson family ate what they believed to be mushrooms and five of them were taken very ill. All were restored and even Mrs. Thompson seemed convalescent. But yesterday inflammation set in, and while the others are able to be around, the lady is suffering great pain.

### Lawyers Will Meet.

The Southern Columbiana county Bar association, an organization founded here a few months ago by attorneys of this city and vicinity, will meet in the office of John J. Purinton on Saturday evening. The meeting will be called to order at 7 o'clock, and will discuss the new rules laid down by the court and the assignment of cases for the next term. The call says that a full attendance is requested.

### Coxey in Salem.

SPECIAL TO THE NEWS REVIEW. SALEM, Sept. 19.—Coxey, the commonwealer, is here today with his circus, big tent and other paraphernalia, but lacks the crowd. At his meetings he will not have a corporal's guard. The fair association have decided to postpone the fair one day making it Thursday and Friday instead of today and tomorrow owing to rain.

### Huntsman Is Free.

The charge against young Kelly Huntsman for the holding up of Leith Young last week was withdrawn this morning, and the youthful prisoner was given his freedom. Aside from this no cases are docketed in mayor's court today.

### A Distinguished Visitor.

Hon. J. T. Donnelly, of Mount Dora, Florida, is in the city the guest of S. H. Porter. The gentleman is one of the best known orange growers in the sunny state, and owns immense groves which produce the much sought for fruit.

### Gone to Cleveland.

Jesse M. Moore, of East Liverpool, was in this city this morning on his way to Cleveland, to enter the medical department of the university of Wooster. Mr. Moore was a student of Mt. Union college a couple of years ago.—Allied Critic.

SALEM, Sept. 19.—Coxey, the commonwealer, is here today with his circus, big tent and other paraphernalia, but lacks the crowd. At his meetings he will not have a corporal's guard.

The Trades and Labor Council of East Liverpool, in full session assembled, warmly advocates the News Review as the only paper in this city of East Liverpool employing union labor exclusively, and advocating the cause of legitimately and legally organized labor.

The News Review believes in fair play—justice to workmen and employers alike—and will stand or fall on this platform. Fair play is a jewel of untarnished and undimmed lustre, and all citizens will receive fair play in these columns.

EAST LIVERPOOL, O., WEDNESDAY, SEPT. 19.

REPUBLICAN TICKET.

Secretary of State, S. M. TAYLOR.

Judge of Supreme Court, JOHN A. SHANK.

Member of Board of Public Works, CHARLES J. GRACE.

Commissioner of Schools, O. J. CARSON.

Congressman, R. W. TAYLOR.

Prosecuting Attorney, C. S. SPEAKER.

Commissioner, SAMUEL BYE.

Infantry Director, C. D. HILSON.

For President, WILLIAM MCINLEY, Of Ohio.

Ohio Democrats seem to have forgotten the tale of those Kilkenny cats of ancient time.

EDWARD J. RAFF has the sympathy of all good people in the position he occupies as leader of the forlorn hope.

WILLIE WILSON is having a lot of fun telling the people of England how he boomed their industries by revising the tariff. When it comes to patting himself on the back the professor can do it as well as any.

WITH A Populist and a Democrat to fight him, R. W. Taylor should make a phenomenal run for congress. His majority should be an amazing reminder to all that this is a Republican district, and the voters here know their best interests.

DOCTOR KIRK is politically dead. They forgot to mention him at the county convention, and not a word was said at Alliance. Verily the doctor can exclaim with the poet of old "vain pomp and glory of this world, I hate ye."

SOME FORAKER MEN.

If J. B. Foraker, he who once showed that he was a patriot as well as the governor of Ohio, desires to enter the senate, he will likely be given an opportunity when the next legislative convenes. Foraker is not only an attorney who can win a case, but he is one of those magnetic men who draw friends at the right time and for the purpose. He possesses those qualities which make the ordinary man great, and can battle in the field of politics with any of the good Republicans who rise to oppose him. Should he be called upon to occupy the place now held by Calvin S. Brice, there is every reason to believe that he will not only reflect credit upon himself but upon the state he represents. Straightforward and honest, fiery yet earnest, he would stand upon the floor of the senate, and with some of the vigor which marked his administration in Ohio let some of the brigadiers know what eloquence really is when the orator knows he is in the right. For the senate—J. B. Foraker.

A MATTER OF BUSINESS.

The publication of important announcements sent from county officials should never be in obscure papers which do not reach the people, but in the wide-awake journals of reliability and circulation. To present any publication with this matter and have the county pay the bill is nothing more than putting a hand into the pockets of the people and compelling them to bear the expense of that official's campaigning. But if the paper gives value in the way of service there can be no objection in any manner. Another matter which the official might consider is the uselessness of a paper fighting in his cause when it is known to be useless as an advertising medium, and is read by only a few persons who receive it gratuitously. Such a journal is of no earthly use to anyone except it be a politician desirous of gaining benefit by keeping it in operation. If circulations were in circulation, there are some papers in Columbiana county that would not see a line of advertising from one year to another.

# MORTON THE NOMINEE

Will Lead New York Republicans In the Coming Fight.

A SNAPPY PLATFORM ADOPTED.

Record of the National Administration Fiercely Attacked Over Tariff and Other Points—Blows Struck at Flower—Saxton For Lieutenant Governor.

SARATOGA, N. Y., Sept. 19.—The Republican state convention has nominated Levi P. Morton for governor.

Charles T. Saxton was nominated for lieutenant governor.

The platform extends greetings to the Republicans of Pennsylvania, Rhode Island, Oregon, Vermont and Maine, "for their prompt and just judgment of an incompetent Democratic administration."

The state Democratic administration is denounced for extravagance. National affairs are referred to as follows:

"The Democratic president of the United States and the Democratic chairman of the ways and means committee of the house of representatives have announced that the war against the protected industries of the country has but just begun, and that it is to be prosecuted to the bitter end. On behalf of the wage earner, the agriculturist, the business man and of every sacred interest in the Empire state of the Union, the Republican party of the state of New York, in convention assembled, accepts this challenge and pledges its faith to defend against all assault the rights of the working man and his employer, both wantonly invaded by reckless demagogues.

Then follows an arraignment of the Democratic administration, declaring: "The most important achievement of this far has been fifty characterized by the chief executive as one of 'perfidy and dishonor'; it has rewarded the largest contributors to its campaign fund by the bestowal of foreign missions; denouncing trusts, it permitted one of them to formulate its tariff bill; promising a continuance of the vigorous foreign policy established by the lamented James G. Blaine, it substituted a policy of 'infamy' when Hawaii was freely offered; denouncing the Sherman act as a 'cowardly make-shift,' it was enabled to repeal the silver purchasing clause of the act only by the help of Republican senators; arraigning protection as a 'fraud upon labor,' it passed a mongrel protective measure so tainted with scandal that it barely escaped the veto of a Democratic president; advocating free raw materials and an extension of our foreign trade, it destroyed all the profitable reciprocal agreements made by President Harrison; pledging itself to the payment of just and liberal pensions it treats the Union soldiers as if the Grand Army badge was the badge of beggary and brigandage; pledging retrenchment, it exceeded at the last session of congress the expenditures of the corresponding session of the last Republican congress by \$27,000,000 in the face of decreasing revenues, and after it had added \$50,000,000 to the public debt; while pretending to be in favor of individual freedom, it hastened to enact an odious income tax force bill, empowering deputy collectors to enter the homes of citizens and compel them by threats of official summons and heavy penalties to disclose their private affairs."

"We denounce northern Democratic congressmen for permitting southern members to protect the chief products of their section while removing or largely reducing protective duties on the products of the north, thus permitting the south by legal enactment in time of peace to destroy our prosperity and accomplish what it failed to do by illegal enactment in time of war."

"We denounce the federal administration for surrendering an annual revenue of \$5,000,000 on wool and imposing a burden nearly 10 times greater by levying a tax on sugar, the commonest household necessity."

"We favor an honest dollar, and oppose any effort, whether by the removal of the tax on state bank issues or the free coinage of silver, to lower our currency standard, and we favor an international agreement which shall result in the use of both gold and silver as a circulating medium."

The administration of Governor Flower is denounced especially, reference being made to his veto of the bill to provide funds for the police investigation in New York City.

FLOWER WON'T RUN.

He Thinks a More Popular Man Than Himself Should Be Nominated.

ALBANY, Sept. 19.—Governor Flower has announced that he is not a candidate for re-nomination for governor.

Governor Flower later said: "This is an important year for the party. Republican victory in November would be likely to mean a perpetuation of Republican control for many years in this state and Republican success in the nation in 1899."

"Our ticket must have the earnest aggressive support of every Democrat to insure Democratic victory, which I may not be able to command, and that man should be nominated for governor who can certainly command that support. As for myself, I need not assure the Democrats of New York that I will be found, as I have always been in the past, battling in the ranks for the success of the ticket."

CHANG REPORTED DEPOSED.

The Aged Chinese Premier Has Also Lost Another Decoration.

SHANGHAI, Sept. 19.—An imperial edict has been issued depriving Li Hung Chang of his three-eyed peacock feather because of his mismanagement of the Korean campaign. It is reported that he has been deposed.

Will Be Given Another Chance.

NEW YORK, Sept. 19.—Ex-Police Captain John T. Stephenson, who was dismissed from the police force by the commissioners upon charges of taking money from produce merchants for sidewalk privileges, has, through his counsel, John Vincent, procured from Justice Lawrence of the supreme court a writ of certiorari for the purpose of reviewing the action of the commissioners.

Will Make Tin Plate.

LONDON, Sept. 19.—The Daily News says that one of the wealthiest American iron and steel makers, now in England, states that he and several of his friends are so satisfied with the prospects of tin plate making in the United States that they are forming a private company to commence the manufacture of tin plate on a scale that will immensely increase the American output.

Declined a Good Job.

TOPEKA, Kan., Sept. 19.—A story is afloat in railroad and financial circles that A. A. Robinson has been offered the presidency of the Atchison, Topeka and Santa Fe system at a salary of \$90,000 a year, but that he has declined it, saying: "I will accept no position with the Santa Fe until it has been thoroughly washed and dried."

Wanted to Prevent Others Working.

PHILADELPHIA, Sept. 19.—Many of the 150 hands employed at Campbell's Woolen mill who went on a strike against a 20 per cent reduction in wages, gathered around the mill and endeavored to prevent other workmen from taking their places. A squad of police is on guard and no serious disturbance has taken place.

A GOOD RUN.

Bicyclist Searles Goes 600 Miles In Seventy-Two and a Half Hours.

ELIZABETH, Pa., Sept. 19.—B. P. Searles has reached here, having ridden about 600 miles from Chicago in 72 1/2 hours, including seven hours of rest, an average of nearly eight miles per hour of actual riding.

He has been paced this far by members of the Cleveland Wheel club and will be taken from here by Buffalo riders. He is pulling against a strong wind but has fine roads and is feeling well. His 20-pound wheel and light tire have been no trouble so far.

LEVI P. MORTON.

resembled, accepts this challenge and pledges its faith to defend against all assault the rights of the working man and his employer, both wantonly invaded by reckless demagogues.

Then follows an arraignment of the Democratic administration, declaring: "The most important achievement of this far has been fifty characterized by the chief executive as one of 'perfidy and dishonor'; it has rewarded the largest contributors to its campaign fund by the bestowal of foreign missions; denouncing trusts, it permitted one of them to formulate its tariff bill; promising a continuance of the vigorous foreign policy established by the lamented James G. Blaine, it substituted a policy of 'infamy' when Hawaii was freely offered; denouncing the Sherman act as a 'cowardly make-shift,' it was enabled to repeal the silver purchasing clause of the act only by the help of Republican senators; arraigning protection as a 'fraud upon labor,' it passed a mongrel protective measure so tainted with scandal that it barely escaped the veto of a Democratic president; advocating free raw materials and an extension of our foreign trade, it destroyed all the profitable reciprocal agreements made by President Harrison; pledging itself to the payment of just and liberal pensions it treats the Union soldiers as if the Grand Army badge was the badge of beggary and brigandage; pledging retrenchment, it exceeded at the last session of congress the expenditures of the corresponding session of the last Republican congress by \$27,000,000 in the face of decreasing revenues, and after it had added \$50,000,000 to the public debt; while pretending to be in favor of individual freedom, it hastened to enact an odious income tax force bill, empowering deputy collectors to enter the homes of citizens and compel them by threats of official summons and heavy penalties to disclose their private affairs."

"We denounce northern Democratic congressmen for permitting southern members to protect the chief products of their section while removing or largely reducing protective duties on the products of the north, thus permitting the south by legal enactment in time of peace to destroy our prosperity and accomplish what it failed to do by illegal enactment in time of war."

"We denounce the federal administration for surrendering an annual revenue of \$5,000,000 on wool and imposing a burden nearly 10 times greater by levying a tax on sugar, the commonest household necessity."

"We favor an honest dollar, and oppose any effort, whether by the removal of the tax on state bank issues or the free coinage of silver, to lower our currency standard, and we favor an international agreement which shall result in the use of both gold and silver as a circulating medium."

The administration of Governor Flower is denounced especially, reference being made to his veto of the bill to provide funds for the police investigation in New York City.

FLOWER WON'T RUN.

He Thinks a More Popular Man Than Himself Should Be Nominated.

ALBANY, Sept. 19.—Governor Flower has announced that he is not a candidate for re-nomination for governor.

Governor Flower later said: "This is an important year for the party. Republican victory in November would be likely to mean a perpetuation of Republican control for many years in this state and Republican success in the nation in 1899."

"Our ticket must have the earnest aggressive support of every Democrat to insure Democratic victory, which I may not be able to command, and that man should be nominated for governor who can certainly command that support. As for myself, I need not assure the Democrats of New York that I will be found, as I have always been in the past, battling in the ranks for the success of the ticket."

# SAW SEVEN ROBBERS.

Brakemen's Experience on the Santa Fe Holdup.

TWO OF THEM ARE IN CUSTODY.

Abrams, the Leader, Is Badly Wounded. Engineer Prescott Shot—A Wild Scene of Confusion on the Train—The Would-be Bandits Are Farmers.

KANSAS CITY, Sept. 19.—Rear Brakeman J. B. Mooney of the Santa Fe train held up at Gorn, Mo., says there were seven robbers instead of four. Just after the train was stopped he was sent back to protect the rear end of the train. A road crossed the track. In this road were two men holding five horses. Later, he declares, after one horse had been killed and another that had been tied in the timber ran away, he still saw the original five. One of the men who tied the horses immediately thereafter took after the brakeman. He caught him, and holding a pistol close to the brakeman's nose, demanded his money. Money gave up all he had—\$19—when the robber made him go back to the train. Mooney describes the man as a tall, strapping fellow, who wore a white handkerchief covering over the lower part of his face.

The names of the captured men are: Charles Abrams and Lincoln Overheld, the former being the one so badly wounded. They and their accomplices were farmers living in the neighborhood of Gorn.

W. E. McDaniel, the man who had advised the officers of the plot, time and place of the robbery, went with C. E. Abrams and Link Overheld and two others to Gorn. Sheriff H. B. Saling and City Marshal L. E. Hyne went to a town east of Gorn and joined Detective J. J. Kinney and two assistants of the Santa Fe. C. W. Stockton, detective of the Wells Fargo express, and two assistants, and all took passage on train No. 5. As they neared Gorn the engineer noticed the switch signal light had been removed, he heard a torpedo explode and saw a signal flag being waved.

He answered the signal and stopped the train. Abrams, the leader of the gang, ran to Engineer Prescott and cried out: "We've got you; hold up your hands." The engineer was a little slow in responding and Abrams shot him. Detective Kinney, who was concealed in the tender, raised up and shot Abrams in the shoulder with a double-barreled shotgun loaded with buckshot. Abrams started for the brush and the other robbers for their horses. Abrams' horse was killed by one of Kinney's assistants. The robbers fled when the officers appeared. The officers scoured the brush, but did not find the robbers. The robbers located Abrams and Overheld and lodged them in jail. Abrams will die. Two others are supposed to have been implicated in the holdup and the officers are after them, but refuse to give their names.

A scene of confusion occurred on the train. The women were frantic in their endeavors to get out of the way and the men no less eager, showing as much fright as they possibly could display. Some lay flat on the floor, others barricaded themselves in their berths or clambered underneath, while the others ran frantically up and down the aisle, apparently bewildered. One man, probably 50 years of age, when the shooting began to be fierce, knelt down in the aisle and prayed long and loud for deliverance.

# SENT FOR MURDER.

Coal Operators Want to Consult With Him at Cleveland.

CLEVELAND, Sept. 19.—F. H. Zerbe, a prominent Massillon coal operator of this city telegraphed to President John McBride at Columbus asking the latter to come to Cleveland at once. When seen by a reporter, Mr. Zerbe would not say why McBride had been sent for, but it is very probable that the operators desire to make one more effort to settle the strike with their old men, who have now been out eight months. If this effort fails colored miners will be employed.

A telegram was received from President McBride stating that he was on his way to Cleveland to hold a conference with the operators.

SENATOR BRICE.

to work up a sentiment on account of his attitude in the late tariff fight in congress, is here. The senator has trusted lieutenants on the ground helping him look after his interests as appears by the makeup of the various committees. The anti-Brice men claim four out of the 21 members of the committee on resolutions, the principal of whom is Congressman Tom Johnson of Cleveland. The Brice men claim all but two members. The committee is also regarded as strongly in favor of free silver, the most prominent advocate of this issue being Allen W. Thurman of Columbus. The committee on resolutions is as follows:

## OWENS SURE OF IT.

Breckinridge Talks of a Protest, But His Friends Object.

LEXINGTON, Ky., Sept. 19.—There is absolutely no doubt that W. C. Owens has secured the nomination as Democratic candidate for congress from the Ashland district. The official count of the various county committees shows a plurality for Owens of 270 over Breckinridge. While Breckinridge seems determined to have a contest before the district committee at Frankfort next Saturday, there is no doubt that the committee will refuse to throw the nomination to Breckinridge, as such action will, in the opinion of conservative Democrats, completely disrupt the Democratic party in this district.

Several strong Breckinridge men have been interviewed and all express themselves as opposed to any contest. They say that Breckinridge is undoubtedly defeated and believe it would be bad policy to stand against the will of the people. A number of bets against Owens have been paid.

Colonel Breckinridge has been on the streets of Lexington a great deal and has greeted everybody with his customary politeness.

## FLOUNDER STRIKING.

A SPORT OF THE NEGROES OF THE SOUTHERN COAST.

It Puzzles a White Man, But the Darky Can Hit a Flounder With His Spear Where You Would See Only Mud—The Expert Fisherman Never Misses His Fish.

Did you ever "strike" a flounder? Probably not unless you have lived or passed some time on the coast of the southern states.

One lovely August evening, just before sunset, as I stood on the back porch of our summer home on the coast of South Carolina, I noticed that our boy Bob, a great big black cheerful looking fellow about 19 years old, as lazy a rascal and as big a thief as his whole race could produce, seemed to be very busy over a boat at the little wharf only a short distance from the house, and as I stood there watching him the mystery was explained.

Noticing that I was watching him with a good deal of interest, he came up to the steps, and removing the tattered rim of what was once a felt hat said:

"Boss man, I've goin' 'strikin' flounder tonight. Like to go 'long? It's easy 'nuff," he said. "Jest put on ole clo that don't matter 'bout wettin, and I'll call for you after supper."

After having finished supper and enjoyed a cigar and a stroll on the beach, watching the bathers in the surf and spying a distant sail on the horizon, I proceeded to dress for the occasion. Taking Bob's advice, I selected an old pair of baseball shoes, an ancient pair of cadet trousers that had stood the test of many a dress parade—a relic of my "rat" year—a cap of the same description and a flannel shirt and a heavy coat, for it was cool on the water after sunset, even in midsummer, not forgetting to take a good supply of tobacco and a pipe to keep off the gnats and sand flies and a plug of chewing tobacco for my companion. Negroes always claim to be out when a white man is around.

I joined Bob at the back door, and we made our way down to the landing. Here we found a large flat bottomed scow, on one side of which was fixed an old grate, in which a fire was burning fiercely, while at the other end was a huge pile of dry oak, with plenty of fat pine for kindling. Standing in the boat was a colored boy of about the same size and blackness of my attendant, whom Bob designated to me as "my mammy's sister Sally's boy Rufe."

Greeting the grinning Rufus, who replied by scraping the bottom of the boat with one foot, while he touched where his hat would have been had he worn any, for no such article encumbered his woolly crown, we all made ourselves comfortable, Bob standing at the bow, Rufus at the stern, with a pole, while I was invited to take the middle seat near the fire and requested to keep the boat clear of water, which as soon as we began our journey rushed through the many crevices with astonishing rapidity.

The night was very dark, but lighted by our fire we began to follow the shore, and our flat bottom enabled us to keep in very close. And now came to me what was the strangest part of the proceeding. Bob, standing, as I have said, in the bow, armed with a striking pole, which is simply a heavy rod about 8 feet long, with a two pronged fork at one end, kept his eyes fixed on the water, which was brightly lit up for several feet in front of the boat, while he held the pole raised in his right hand. All at once, and without a word, he suddenly thrust the pole into the water in front of him, and with a chuckle of triumph dashed the pole into the bottom of the boat, and struggling and splashing around was a dark flat object about a foot long, with two great gaping wounds made by the prongs of the fork. The flounder was exactly the color of the bottom of the water and very flat, and how on earth anybody, even a hungry negro, could distinguish it with the boat going at a pretty rapid rate was something I could not make out and have never been able to fathom.

To be sure, the water was quite shallow, ranging in depth from 1 to 2½ feet, and the light from the fire was very bright, but when you take into consideration the fact that the water was almost black and very muddy and soft, and that the fish almost bury themselves therein, it will be seen that it requires no small amount of skill and quickness to detect the flounder with the boat being rapidly pulled along.

And I never saw Bob miss. It would be natural to suppose that the "striker" would occasionally mistake some object for a flounder in waters that teemed with all kinds of fish, or that sometimes he would fail to secure the fish, even if he struck correctly, for it is a known fact that "the biggest fish I ever caught was the one that got away," but, no, I never knew Bob or any of the other many negroes whom I afterward saw "striking" to be guilty of failure. Sometimes the flounder would be pierced by only one prong instead of two, and sometimes the wound would be very near the side of the fish, but secure him they always did.

That night we were out about two hours and secured eight of as fine flounders as I ever saw, ranging in size from 10 to 15 inches, three of which furnished a very fine breakfast dish the next morning.—Philadelphia Times.

Quality Against Quantity.

As regards woman suffrage, New York, with all its fashionable furor, is still in that stage of the agitation—passed years ago in Boston—where the "antis" seek to make an impression by claiming "quality as against quantity" of names in their petitions. To put forward this rather vulgar boast was soon found to be very indiscreet campaigning in New England and a powerful help to the other side.—Boston Transcript.

## LOCAL BREVITIES

R. G. Boyd lost a valuable horse by death yesterday at Dr. Wannamaker's stables.

Miss Farrhill, of Thompson hill, is suffering from an attack of throat trouble.

Miss Allison has been ill at her home in Chester with neuralgia, but is now recovering.

The Republican central committee will meet in city hall Friday night to organize for battle during the coming campaign.

McKinn, the successor of Mr. McKinn in the office of Superintendent Loree at Cleveland, was here today on railroad business.

The jigmen at the Burgess still works, who have been laid off on account of a scarcity of clay since last week, resumed work this morning.

J. G. Duval left yesterday for a two weeks trip on the road, for several big furniture manufacturing firms which he has represented on previous tours.

The Young Men's Christian association base ball team may go to Salineville on Saturday, although the arrangements have not yet been completed.

Doctors Andrews, Marshall and Calhoun held a consultation today regarding the condition of Mr. Alabang who is very ill at his home in the East End.

Arrangements are being made for a private dance to be held tomorrow evening in Bradshaw hall. About 20 couples of society young people will be in attendance.

There is another case of loving not wisely but too well, and a young man and woman have placed themselves in an unenviable position. The outcome of the trouble remains to be seen.

Cashier F. D. Kitchell left this morning for Cleveland where he will attend the State Bankers' convention which will be in session today and tomorrow. Mr. Kitchell will represent the Potters National bank, of this city.

The local branch of the Western Union telegraph company is in charge of Night Operator Harry Yates today, owing to the illness of Harry Brookes and the absence of the manager, Miss H. M. Brookes, who is visiting friends in New Lisbon.

East Liverpool has a youngster who is a caution. Recently he answered a catch penny advertisement, and a firm tried to make him pay for several dollars worth of goods he had not ordered. He wrote back that "his wife would not allow him to take the stuff" and it is supposed that the firm took it all in, as he has not heard from them since.

There are prospects for another fine brick building in the Diamond before another year rolls around. The site proposed is where T. J. Barnes' place of business stands. One of the prospective builders told a News-Review reporter this morning that the idea was looked upon favorably, but he could not tell what decision would be reached. Such an improvement would add greatly to the name of the city.

East Liverpool is growing and rapidly too. Four families arrived yesterday and today. John Hansfield's household goods came from Cincinnati. Charles Dawson's from Boston. Mrs. James Colley's from Salineville and Sarah B. Anthony's from Bridgeport. No better proof is needed that the Ceramic City has great attractions than the fact that since the strike ended there are 10 arrivals to one departure.

The street railway company could greatly improve the appearance of the rolling stock by a few coats of paint. Some cars are scratched while others are worn. As a whole they look ready for the repairing barn, although the seats are comfortable and the upholstering little the worse for wear. Should the company paint the cars a fashionable tint of red the appearance would be improved and the cars made more inviting.

An accident occurred at the Knowles, Taylor & Knowles china works this morning. An elevator heavily laden with clay was ascending to the top story, when the wire rope snapped in twain, precipitating the load to the bottom floor with a loud crash. No one was injured although an employee had a narrow escape from being hit by the rope as it recoiled. Beyond wrecking the elevator no great damage was sustained. The breakdown will throw most of the clay hands out of work until repairs have been made.

The rains have done inestimable good in the country about this city, and even the late corn will be much better than was anticipated. As the greater part of the crop was of the earlier varieties, however, the loss will amount to many thousands of dollars in this county and the adjacent region of West Virginia. Potatoes have almost all been brought from the earth and amount to little more than half a crop, while few large specimens are found anywhere. The farmers are having a hard year of it with wool next to worthless, crops no good, and sugar away up.

### CLARKSON NOTES.

Miss Carrie Finney is teaching at Irwin district.

The Clarkson band discoursed their finest music at the New Lisbon fair.

Mr. and Mrs. Basil Rowe spent last week with Mrs. Rowe's relatives here.

The Misses Eva and Nanie Vale visited friends at New Cumberland recently.

Mrs. C. M. L. Altdouffer visited mother and sister of the professor's here last week.

Miss Ethel Moore has gone back to her school duties at North Lima, Mahoning county.

Mr. Jesse Moore has been engaged to teach the East Fairfield school again the coming winter.

Rev. D. E. Dickson, of East Palestine, occupied the pulpit of the Presbyterian church Sunday.

Harry Lyon and Miss Mary Rowe, of East Palestine, attended divine service at this place yesterday.

Mr. J. B. Bell is preparing to remove with his family to Maryland near Baltimore, where he has engaged in business.

Mrs. Margaret Beibe, of Stewart, Athens county, is visiting friends of her mother, Mrs. Martha Hall, a sister of Uriah Thomas, deceased.

Married by Rev. Ernest Michlin Saturday evening at the residence of the parents of the bride, Mr. Roy Thomas, of East Liverpool, to Miss Laura Hollinger.

Excursion trains from the west have brought many old time residents of Columbiana county back to scenes of former days. Among the number were Mr. and Mrs. Johnston and daughter Isadine, of Wells county, Ind., and Margaret Azdell, of Mexico, Mo., and daughter Miss Cordia, G. Ross Moore, of Marshall county, Iowa, and George Moore, of Palmer, Kansas, and a brother of Mr. E. S. Moore, of Iowa.

Death was a visitor in our little village also last week, removing from our midst a loved friend and neighbor, Mrs. Abigail Hole, in the seventy-third year of age. For many years she had been an invalid, never being able to take part in the active pursuits of life; but she bore her afflictions bravely, always submissive to the will of Him who doeth all things well. Her husband, Thomas Hole, preceded her to the tomb many years. Three children survive her, George A. of Cleveland, Harvey, in the old home, and Annie, wife of Err Farr, of Salem. Several brothers and one sister mourn the loss of a sister; one brother, George Ross Moore, of Iowa, was present in her last hours, having been attending the encampment at Pittsburgh, and arrived in time to visit her ere death claimed her Saturday morning and removed her from our midst. The funeral services were held in the Presbyterian church Sabbath afternoon and in the absence of Mr. Meehlin Rev. D. E. Dickson, of East Palestine, officiated; after the services the loved form was laid to rest in the cemetery adjoining the church.

### PERSONAL MENTION.

—Miss Stella Coe, of Cleveland, was the guest of friends here today.

—Joseph McFern, of Smith's Ferry, was calling on friends in this city yesterday afternoon.

—Charles Dare, of Wellsburg, a former resident of this city, is calling on old friends here.

—Motorman Lawrence Allison, of the street railway, returned last night from a meeting in Wheeling and Bridgeport.

—Will Brindley leaves tonight for New York, where he will enter a college. He expects to be absent several months.

—James Irwin, of Illinois, spent a few days in this city on his way home from the encampment. The gentleman formerly resided near Fredericktown. He was pleased to note the growth of the Ceramic City.

While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a severe cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough Remedy cured him of his cold so quickly that others at the hotel who had bad colds followed his example and half a dozen persons ordered it from the nearest drug store. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by A. H. Bulger, Druggist.

A. M. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhea and used many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhea Remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords. Twenty-five and 50 cents a bottle for sale by A. H. Bulger, Druggist.

### The Charity Ball.

Never in the history of the theater in this city was more interest shown than is at present being manifested in the production of the "Charity Ball" at the Grand one week from this evening. It is a piece worth seeing, and the Elks will doubtless have a big house. The play at the Grand tonight is Frank Jones and his "Country Cousin." The piece is brimful of humor, and you will miss it if you fail to attend.

### Boats Loaded Light.

It is estimated that 12,000,000 bushels of coal is loaded at Pittsburgh waiting for a rise to move on its long journey to the south. The barges are all light, and when a seven foot boating stage is reached they can go merrily on their way. The strike first and the dry weather afterward sadly depleted the stock of coal in the south.

Irving W. Larimore, physical director of Young Men's Christian association Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, foot ball players and the profession in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time usually required. For sale by A. H. Bulger, Druggist.
